This past year has been an exciting one for the Wilder Foundation. The new Wilder Center, located at Lexington Parkway and University Avenue, is in the final stages of construction. Our new facility, which combines several program sites, is set for occupancy in early 2008, and will allow the Foundation to expand its capacity to provide 22,000 client visits and community convening space to over 10,000 people annually.

A unique feature of Wilder Center, a concrete “word band” surrounding the building, is comprised of 26 word pairs drawn from the original Wilder family wills, articles of incorporation and mission statement. By carving these words in stone, words that capture the spirit of the Wilder family’s wishes, we will provide a daily reminder to all who walk through our doors of the Foundation’s purpose to enrich the Saint Paul community and improve the lives of its most vulnerable citizens.

Let us share some samples of progress over the past year through the lens of those words pairs:

**transform lives** Through all of Wilder’s programs and services, we seek to enrich the lives of the clients we serve, assist them in their efforts to become productive and contributing citizens, and improve their overall quality of life. Over the past year, Wilder has touched the lives of more than one in 20 persons in Saint Paul.

**nurture children** School success is a primary focus for Wilder. The Superintendent of the Saint Paul Schools has given her enthusiastic support to Achievement Plus, the Foundation’s academic reform effort. This project is in the process of expanding to an additional school, Cleveland Junior High.

**remove barriers** Wilder is committed to removing barriers to success, and one key way is to provide safe, affordable and stable housing. Best stated by a Wilder resident, “What a difference an address makes,” the Foundation is considering potential plans for four new affordable housing projects in Saint Paul.

**support families** Wilder places major emphasis on helping the most troubled children and their families, often while they face overwhelming circumstances. Over the past year, the Foundation touched the lives of 2,941 kids, who without receiving these services and support would be experiencing severe behavioral problems.

**share knowledge** Wilder has demonstrated continued growth in its research impact, most notably this year through another release of the Homeless Study, which provides the factual basis for the State of Minnesota’s plan to end long-term homelessness.

**inspire community** One of the Foundation’s goals is to inspire individual members of the community to develop new skills and take on challenges to improve society. One example of such inspiration was the recent development of a Spanish-speaking Leadership Development Program for new Latina women in Saint Paul.

**value elders** Wilder has developed its initial plans for a Center for Healthy Aging, designed to find additional alternatives to nursing homes, support caregivers of the aged, and promote prevention strategies to assist with healthy aging.

**press forward** As we embark on our second century of service to Saint Paul, Wilder looks forward to growing its services with and for our community. We extend our profound gratitude to everyone who has assisted us in reaching this exciting time in our history.

ABOUT THE WILDER FOUNDATION

The Amherst H. Wilder Foundation is a nonprofit health and human services organization that has served the greater Saint Paul, Minnesota area since 1906. The Foundation offers a wide range of programs and services to help children succeed in school, troubled youth and families overcome barriers to successful living, individuals and families maintain stable, long-term housing, and older adults remain independent. Wilder leadership development programs work to build skills of emerging community leaders and renew the energy and commitment of experienced leaders. Wilder Research is one of the nation's largest nonprofit research and evaluation centers dedicated to the field of human services.

**Our Values**

To accomplish our stated mission, Wilder is committed to:

- Be a lasting and significant charitable presence in the metropolitan Saint Paul area
- Respond compassionately and creatively to human needs
- Be a leader in human service and community development
- Distinguish our services with quality and integrity

**OUR MISSION**

Amherst H. Wilder, a wealthy Saint Paul businessman, his wife, Fanny and their daughter Cornelia Day Wilder Appleby created the Foundation in 1906, funded by \$2.6 million in trusts left by the family. Their wishes have been carried out for over 100 years, fulfilling the following mission:

The mission of the Amherst H. Wilder Foundation is to promote the social welfare of persons resident or located in the greater Saint Paul metropolitan area by all appropriate means including:

- Relief of the poor
- Care of the sick and aged
- Care and nurture of children
- Aid of the disadvantaged and otherwise needy
- Promotion of physical and mental health
- Support of rehabilitation and corrections
- Provision of needed housing and social services

And, in general, the conservation of human resources by the provision of human services responsive to the welfare needs of the community, all without regard to, or discrimination on account of, nationality, sex, color, religious scruples or prejudices.

Amherst Holcomb Wilder  
1828-1894

Fanny Spencer Wilder  
1837-1903

Cornelia Day Wilder Appleby  
1868-1903

**Our Vision**

The Wilder Foundation is **here for good!** The Foundation's vision for the greater Saint Paul area is that it will be a vibrant community where all individuals, families and neighborhoods can prosper, with opportunities to work, to be engaged in their communities, to live in decent housing, to attend good schools and to receive support during times of need.

“My favorite thing here is playing with the other kids outside. Sliding down the slide on my knees is my favorite. Sometimes you turn around and go backwards, I love that the most!”

– Justice, student

“What I love most working here is all the interaction with the kids. They grow and learn so much here.

Right now Justice is in the Butterfly class, next year he is going to be a Dolphin.”

– Jessica  
staff (teacher)

### CHILD DEVELOPMENT CENTER

The Wilder Child Development Center (CDC) is a full-day child care and early childhood education program. The program serves children ages 16 months to kindergarten who live in the greater Saint Paul area. It is designed to promote the social, emotional, cognitive, and physical development of the children, including age-appropriate proficiency in personal and social skills, language and literacy, and mathematical thinking.

The Child Development Center provides qualified and caring staff, nutritionally sound meals, age-appropriate programming, and family outreach activities and support to promote positive family functioning. The curriculum emphasizes multicultural and multisensory activities that promote younger childrens’ readiness for school and supplement older childrens’ learning in school.

“Her one and a half year-old son had severe allergies and asthma. It just took one wrong thing to eat and she would have to drop what she was doing and head to the doctor. So she worked to find a day care provider who knew about her son’s needs, so she could get on track with employment.

She looked for months for a job. She’d look so discouraged, but I’d say, ‘Tawanda, you are doing everything you need to do. You are going to get a job. You just watch.’ And she did.”

– Gloria, staff

“I was in the shelter with my family when I came into contact with Wilder in January of 2004. Everything went smoothly after that. I got started in a nice, safe place because that’s what we needed at that time to get started.

I don’t know how I do it some days, but now I have my own place. I work a full time job. I take care of my teenager, pre-teen and five year-old. And I attend Century College part time studying human services. I’m busy, but it’s better than looking for a home and something to support your family. I’m doing things that I’ve always wanted to do without having all that on my shoulders. It’s a lot of work, but I just feel so peaceful now.”

– Tawanda, client

HERE FOR AFFORDABLE HOUSING

## ROOF PROJECT

The ROOF Project, an innovative transitional housing program, is a collaboration of organizations committed to assisting homeless families in Ramsey County rebuild their own futures. Since 1995, the ROOF Project has assisted over 500 homeless families move from shelters and off the street into housing that is affordable. ROOF is the largest provider of transitional housing in the East Metro and serves nearly 30% of all homeless families in Ramsey County.

Families in the program are helped to secure housing and receive intensive in-home services. Families find and maintain employment and educational opportunities and receive education and support around mental health, substance abuse and domestic violence issues. Parents are encouraged to connect to their children’s schools and provide educational resources for their children in order to achieve school success.

“It’s because of Wilder that we’ve been able to purchase a home. It means stability. I have hope for the future now.”

– *Chue, client*

“Wilder has made a difference for both generations in our family. But mostly for my mom. She smiles now.”

– *Gaojous, client*

“For me the most rewarding thing is coming to work every day and knowing that each day you might make a difference in someone’s life. It makes me feel really good to know I’m helping people lead better lives, especially kids who are struggling with various mental health issues.

This particular family, I’m just so proud of how much progress they’ve made. They are definitely a success.”

– *Chao*  
SEA program staff

**WILDER’S SOUTHEAST ASIAN SERVICES**

The Wilder Foundation’s Southeast Asian (SEA) Services was established in 1984 to help a growing population of refugees work through mental health issues. It serves Hmong, Cambodian, Laotian and Vietnamese immigrants and refugees living in the East metro area.

The program has received national recognition for how it combines Western mental health practices with the traditional healing methods of the Southeast Asian cultures it serves. Its core services, provided to both adults and youth, include mental health assessment; individual, group and family counseling; case management; and school-based youth services.

HERE FOR TROUBLED YOUTH AND THEIR FAMILIES

“I have always felt that my involvement in the homeless study brings me as close to the center of Wilder’s mission as you can get. These are the poorest among us and they truly have the least access to resources. Our study provides both a voice for those experiencing homelessness and a promise that someone is paying attention and that their voices will be represented.

Wilder’s homeless study continues to be relevant and important in both the public and private sectors. The public sector relies on us for reliable and accurate information for both planning and policy purposes. The private sector finds the study essential for documenting needs and for preparing plans and funding proposals to meet those needs.”

– Greg, staff

“My son, Jacari, 10, and I have been staying in an emergency shelter. We were living in transitional housing, but I was unable to find permanent housing when my two years in the program ended.

We’ll be moving soon. My priority is making a good life for Jacari. I want to secure housing, get a job, and be the best dad I can be.”

– Bryan, study participant

### HOMELESS STUDY, WILDER RESEARCH

Since 1991, Wilder has conducted a statewide homeless survey every three years to better understand the causes, circumstances and effects of homelessness, and to promote efforts toward permanent, affordable housing for all Minnesotans.

The October 2006 survey is the most comprehensive to date. More than 950 volunteers around the state conducted face-to-face interviews with some 2,500 people in emergency

shelters, transitional housing programs, and battered women’s shelters. In addition, thanks to extraordinary outreach efforts by Wilder partners, nearly 1,200 homeless people not in shelters were interviewed.

Wilder Research is one of the nation’s largest nonprofit research and evaluation groups dedicated to practical research in the field of human services.

“I see this program providing opportunities for young people to live up to their full potential. Youth make contributions when they feel valued by adults. In our program young people explore their own and other cultures, build confidence, and learn they can make a difference in the community that really matters.”

– *Sally, staff*

“I never knew I had the potential to be a leader until this program challenged me to do it. My parents came from Laos and didn't really understand what leadership could be for a Hmong girl in this country, so they never really encouraged me.

Being a part of this program was the first time I started to hear something positive said about me. Towards the end of the program, we had an exercise where we all closed our eyes and we took turns whispering to each other. I didn't know who was saying what, but a whole group of my peers would say what they've seen in me or what I have the potential to do or to be. As a Hmong girl, you don't hear a lot of positive things. It made me cry. I realized people see potential in me. And now I see potential in myself.”

– *GaoLang, youth mentor*

## YOUTH LEADERSHIP INITIATIVE

The Youth Leadership Initiative is part of Wilder's Center for Communities, which aims to develop effective leaders in our community.

The Youth Leadership Initiative (YLI) is a multicultural program designed to help youth develop strong, effective leadership skills to work in diverse community settings. The program assists youth in learning about themselves, working with others, and engaging in meaningful action. Each year 60 young people between the ages of 14-18 make the year-long commitment to the program.

“Home is the ideal place to receive care. It’s more comfortable to stay in your home with family, friends, neighbors and family pets. In a hospital or nursing home many decisions are made for you, but at home people are much more in control. They are able to be more independent, and I like seeing how well they respond to that.

A lot of people think home care is an easy job, but I think it is one of the most challenging types of work. Staff members have to be comfortable with their skills when working independently with clients in their homes. It takes a special kind of person to do home care, someone who is willing to take on the challenge of something new every day.”

– Mary Ann, staff

“I’ve been at Adult Day Health since before it moved to 650 Marshall, and I had my own spot at the King Center. When we moved over, I picked a spot, and I wanted to keep it. Trouble is I’m slowing down, so I’m usually the last person back from lunch. One of the staff members said to me, ‘I know how to keep your seat for you – I won’t set it up until you get here.’ That’s just one example of how they look out for you there. People there get to know each other really well and get very close.”

I have a nurse, homemaker and Meals on Wheels come to my home where I’ve been for 23 years. It makes all the difference.”

– Ida, client, 95 years old

#### HOME HEALTH CARE AND ADULT DAY HEALTH

Wilder is one of the area’s oldest and most respected home health care agencies, providing safe, reliable and compassionate in-home health care to Saint Paul’s older adults for more than 20 years. Services include nursing care, grooming, laundry, shopping, meal preparation, exercise, social work, rehabilitation, consulting services and caregiver support.

Wilder’s Adult Day Health Center provides older adults with recreational and therapeutic activities, health monitoring, personal care/grooming assistance, nutritious meals and snacks, and social time.

**WILDER PROGRAMS**

**Early Childhood Development Services**

The Wilder Child Development Center provides child care for children ages 2-1/2 to 5 years while their parents work or continue their education. The program, accredited by the National Association of Education for Young Children (NAEYC), is developmental in structure and content, focusing on cognitive, emotional, social and physical growth, with an emphasis on preparing children, and their parents, for success in school.

• **Child Development Center**

**Children's Residential Services**

Children's Residential Services provides a 24-hour-a-day therapeutic environment for children and youth (ages 5 to 18) at three residential treatment facilities in Saint Paul, Minnesota. An evening treatment program and a network of foster homes are also available.

• **Bush Residential Services**

- Bush Memorial Children's Center
- Bush Evening Treatment
- Center for Children with Reactive Attachment Disorder
- Holcomb House

Heritage Partners are individuals who have established named endowments or included the Wilder Foundation in their estate plans through outright gifts, life-income arrangements, wills, trusts, insurance policies and other means. Estate gifts may be designated for the Wilder Endowment Fund or for a specific Foundation program, project or facility.

An annual recognition event celebrates and thanks these special friends. Please call the Office of Planned Giving (mhy@wilder.org) to discuss your interest in becoming a Wilder Heritage Partner.
