# Acknowledgments

Data entry by Gregory Frank, Antoinette Floyd, Kristin Inman-Koval, Christy Olson, Danita Banks, Deb Deaton, Gwendolyn Darden, Lisa Weber, and Matthew Ayres of Hennepin County.

Data entry set up, coordination, and reporting paid for by the Hennepin County/City of Minneapolis Office to End Homelessness.

# Introduction

This brief report summarizes information about the guests served at the Minneapolis/Hennepin County Project Homeless Connect event held on December 7, 2009 at the Minneapolis Convention Center. This was the seventh Project Homeless Connect to be held in Minneapolis. The event was organized by the Minneapolis/Hennepin County Office to End Homelessness in partnership with the Family Housing Fund, and a steering committee made up of community members, service providers, and persons who have experienced homelessness.<sup>1</sup>

Overall, Hennepin County Project Homeless Connect served:

- 1,470 households<sup>2</sup>
- 1,620 individuals
- 150 children age 17 or younger
- 29 unaccompanied youth age 14-18

After a discussion of data collection methods this report presents a brief comparison to the population of guests served at the previous Minneapolis/Hennepin County Project Homeless Connect events, along with events held in St. Paul/Ramsey County. This report also includes a series of tables summarizing characteristics of guests served at Project Homeless Connect, including: basic demographics, living situation, income and sources of assistance, services sought, and a de-duplication of guests served at Project Homeless Connect with records of persons known to be previously served by agencies in Minnesota who serve those experiencing or at risk of experiencing homelessness.

---

<sup>1</sup> For further information on the event, see [www.homelessconnectminneapolis.org](http://www.homelessconnectminneapolis.org)

<sup>2</sup> Households include couples with and without children, single parents with children, single adults, unaccompanied youth, and guests identifying as an “other” household type.

## *Methods*

The data reported below were collected on paper by volunteer intake workers on the day of the event, using the form found in the Appendix.<sup>3</sup> The data were later entered into Minnesota's Homeless Management Information System (HMIS) by a team of trained data entry volunteers. Minnesota's HMIS is a statewide database that includes client-level data from many agencies that serve people experiencing homelessness or at risk of experiencing homelessness.<sup>4</sup>

Project Homeless Connect guests received consent forms and were recorded as "anonymous" if they preferred to not have personally identifiable information entered into the HMIS. As a result, 137 of the 1,470 households served (9%) were entered without the ability to run matches in the HMIS database to see whether they have prior service records, or to see whether they were served by providers participating in HMIS after the event.

Guests who agreed to be entered with identifiable information were entered as "unnamed clients." That is, their names were only held temporarily by the database. Upon entering the client name in the initial data entry screen, the database automatically generated a unique identifier comprised of parts of the name, date of birth, gender, and race. The database then discarded the name. The creation of the unique identifier enabled Wilder Research to assess whether Project Homeless Connect guests were served by other programs participating in Minnesota's HMIS either before or immediately after the event.

---

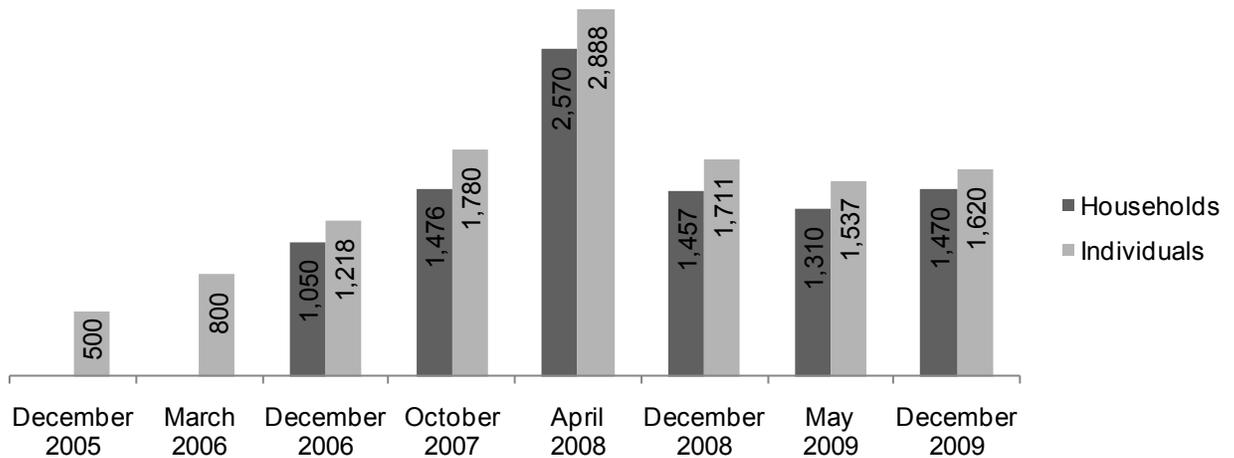

<sup>3</sup> Two questions included on the intake form that relate to wages and hours worked are not included in this report due to the fact that only a small proportion of event guests provided answers to them.

<sup>4</sup> For more information, see [www.hmismn.org](http://www.hmismn.org)

# Comparison with previous Hennepin Project Homeless Connect events

The Minneapolis/Hennepin County Project Homeless Connect held on December 7, 2009 served 1,620 individuals, a 5 percent increase from the May 2009 event that served 1,537 individuals.<sup>5</sup> The December 2009 event served a similar proportion of families and single adults compared to previous events. However, 34 percent fewer children in families were served compared to the May 2009 event, as more parents of children attended the event without their children present.

## 1. Households and individuals served at event – comparison to previous events

Approximately one-quarter of guests served at the December 2009 event identified as not currently homeless, a proportion similar to the previous five events when this information has been collected. An increased proportion of guests reported spending the previous night in suburban Hennepin County, although a majority of guests (66%) continue to report spending the previous night in Minneapolis.

<sup>5</sup> The previous Hennepin County Project Homeless Connect event reports can be found at <http://www.hmismn.org/reports/>

Compared to previous events, a greater proportion of guests with children at the December 2009 event reported receiving benefits such as MFIP, Medical Assistance, and food stamps. In addition, a greater proportion of single guests and guests in families reported having no income. As in previous events, the five services most commonly sought by guests were housing, employment, eye care, dental care, and help obtaining a state ID.

The remainder of this report presents information on the guests served at the December 2009 Minneapolis/Hennepin County Project Homeless Connect, including demographic characteristics, living situation, income and sources of assistance, and services sought by event guests. The report concludes with a section showing how many guests of the event had been served at previous events or had prior contact with agencies participating in Minnesota's HMIS. The report looks at guests receiving follow-up connection with services immediately after the event by looking at their contact with providers participating in HMIS. In addition, the report examines outcomes from guests served at the event based on services found in HMIS.

# Demographic characteristics

## 2. Households served, as presenting at event, by head of household

	Male	Female	Gender Unknown*	Total
<b>In households without children</b>				
Adults	739	267	44	1,050
Unaccompanied Youth (14-18)	11	11	3	25
<i>Sub-total</i>	<i>750</i>	<i>278</i>	<i>47</i>	<i>1,075</i>
<b>In families with children</b>				
Adults	128	251	12	391
Unaccompanied Youth (14-18)	1	3	-	4
<i>Sub-total</i>	<i>129</i>	<i>254</i>	<i>12</i>	<i>395</i>
TOTAL				1,470

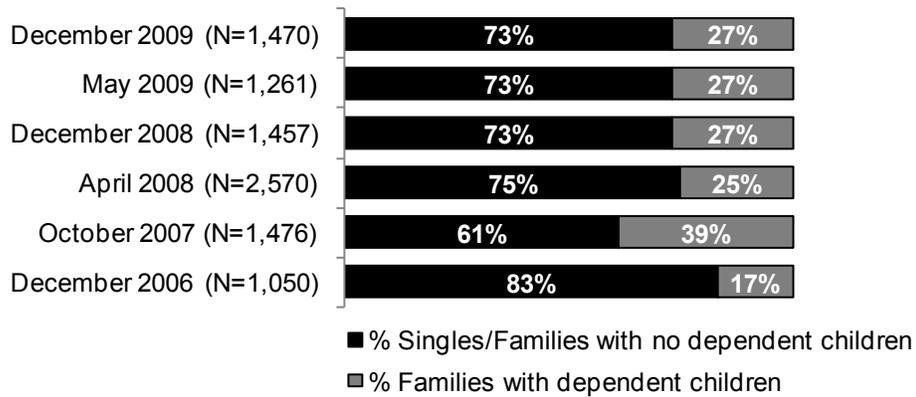

\* Gender recorded as "Don't know" or left blank by intake volunteer. Includes one person identifying as transgender (not shown separately to maintain confidentiality).

## 3. Individuals served at event, by household type

	Number	Percentage
<b>In households without children</b>		
Adult singles	976	91%
Adults in couples (no dependent children)	74	7%
Unaccompanied youth, age 14-18	25*	2%
<i>Sub-total</i>	<i>1,075</i>	<i>100%</i>
<b>In families with children</b>		
Parents or guardians	395	73%
Children, age 13-17	26	5%
Children, age 5-12	35	6%
Children, age 0-4	89	16%
<i>Sub-total</i>	<i>545</i>	<i>100%</i>
TOTAL	1,620	

\* Two additional unaccompanied youth who attended the event with dependent children are included in the category of families with children.

#### 4. Families and singles served at event – comparison to previous events

#### 5. Age of heads of households served at event

	Male	Female	Gender Unknown	Total*
14-17	4 (<1%)	5 (1%)	1 (2%)	10 (1%)
18-21	33 (4%)	49 (9%)	5 (9%)	87 (6%)
22-24	29 (3%)	52 (10%)	3 (5%)	84 (6%)
25-34	110 (12%)	130 (24%)	7 (12%)	247 (17%)
35-44	227 (26%)	104 (20%)	14 (24%)	345 (23%)
45-54	324 (37%)	109 (21%)	11 (19%)	444 (30%)
55-64	107 (12%)	50 (9%)	5 (7%)	162 (11%)
65-79	14 (2%)	6 (1%)	-	20 (1%)
Missing age	31 (4%)	27 (5%)	13 (22%)	71 (5%)
TOTAL	879 (100%)	532 (100%)	59 (100%)	1,470 (100%)
Average age (mean)	44	38	39	42

\* Includes one guest identifying as transgender.

## 6. Race and ethnicity of guests served at event

	Number	Percentage
American Indian/Alaskan Native	204	14%
Asian	11	1%
Black/African American	747	51%
Native Hawaiian/Other Pacific Islander	10	1%
White	345	24%
Other	69	5%
Other Multi-Racial	26	2%
Missing	58	4%
TOTAL	1,470	100%
Hispanic/Latino (any race)	103	7%

\* Up to two categories, including "other multi-racial," were recorded for each guest. The answers are reported here in a manner consistent with reporting used by the U.S. Department of Housing and Urban Development.

## 7. Disability, veterans status, and previous experience with Project Homeless Connect\*

	Adults				Youth** N=29	ALL*** n=1,470
	Men without children n=739	Women without children n=267	Gender unknown Without children N=43	Adults with children n=391		
Has a disability of long duration	43%	58%	56%	35%	28%	44%
Served in US military	16%	2%	2%	3%	-	9%
Has been to a Project Homeless Connect event like this one before*	37%	39%	30%	28%	17%	34%

\* Previous experience according to self-report (not through de-duplicating with prior events).

\*\* Includes two unaccompanied youth with dependent children.

\*\*\* Includes one guest identifying as transgender.

# Living situation

## 8. Homeless status of guests served at event, comparison to previous events

	December 2006	October 2007	April 2008	December 2008	May 2009	December 2009
Not currently homeless	187 (18%)	399 (27%)	558 (22%)	342 (24%)	281 (22%)	369 (25%)
Living with family or friends*	45 (4%)	181 (12%)	219 (9%)	92 (6%)	66 (5%)	90 (6%)
Homeless, but status unknown**	86 (8%)	49 (3%)	97 (4%)	62 (4%)	45 (4%)	60 (4%)
1st time homeless and less than 1 year without home	291 (28%)	316 (22%)	652 (25%)	383 (26%)	318 (24%)	375 (25%)
Multiple times homeless, but NOT meeting LTH definition***	112 (11%)	142 (10%)	371 (14%)	168 (12%)	160 (12%)	185 (13%)
Long term: At least 1 year OR at least 4 times in past 3 years***	315 (30%)	253 (17%)	543 (21%)	339 (23%)	279 (21%)	291 (20%)
Unknown/Missing	14 (1%)	136 (9%)	130 (5%)	71 (5%)	161 (12%)	100 (7%)
<b>TOTAL</b>	<b>1,050</b>	<b>1,476</b>	<b>2,570</b>	<b>1,457</b>	<b>1,310</b>	<b>1,470</b>

\* Guests identified as "not currently homeless" but also indicated "living with family" or "living with friends" (see Table 11 for living situations).

\*\* Guests identified as "not currently homeless" but also indicated living in situations typically considered homeless (emergency shelters, living on the streets/squatting, and transitional housing programs for the homeless).

\*\*\* The state of Minnesota defines an individual, unaccompanied youth or family as "Long-Term Homeless" if they are without a home for a year or more OR have had at least four (4) episodes of homelessness in the past three (3) years. Any period of institutionalization or incarceration (including transitional housing, prison/jail, treatment, hospitals, foster care, or refugee camps) is excluded when determining the length of time the household has been homeless.

## 9. Status of guests at event who are homeless or "doubled up," comparison to previous events

---

**10. Living situation last night**

	<b>Number</b>	<b>Percentage</b>

\* Guests were asked what their top three services were from the list provided above. Some indicated more than three.

\*\* Includes two unaccompanied youth with dependent children.

\*\*\* Includes one guest identifying as transgender.

# De-duplication with data in Minnesota's HMIS

One of the reasons Project Homeless Connect organizers wanted to enter data from the event into Minnesota's HMIS was to get a sense of how many of those served at the event were already involved with social service providers, particularly providers whose mission is to serve people experiencing homelessness. While Minnesota's HMIS remains imperfect for the task, an increasing number of organizations whose mission is to serve those experiencing homelessness participate in HMIS.

As of November 2009, the HMIS included 74 percent of shelter beds, 84 percent of transitional housing program beds, and 65 percent of permanent supportive housing beds in Hennepin County. The HMIS also includes the County's large homeless prevention program, as well as some other "services only" programs not associated with beds. Further, entering the data into the HMIS enabled us to run matches against people served in other parts of the state, as well as earlier Project Homeless Connect events held in Hennepin and Ramsey counties.

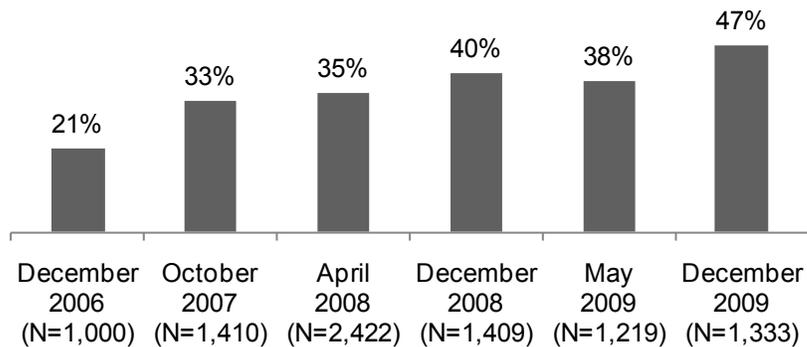

As discussed in the introduction, all guests who signed a consent form at Project Homeless Connect were entered as "unnamed clients" in the HMIS database. This means that while elements of the clients' names were used in creating a unique identifier, the name was not permanently stored. This procedure allows Wilder to un-duplicate clients served in Project Homeless Connect with other records in the database without permanently storing their names. The unique identifier is created using parts of the name, date of birth, and gender.

While using the unique identifier to find matching records is the most reliable method available, it does present some limitations. Data entry errors and use of nicknames will cause different unique identifiers to be issued that will prevent matching. For example, if a guest is entered as "Bob Smith" at one event and then seeks services at a participating provider as "Robert Smith," this discrepancy will result in his records not being matched to identify him as the same person, using the method employed here. Further, around 8 percent of all clients entered into Minnesota's HMIS are entered as anonymous, many of whom are clients of domestic violence or legal service providers. As a result, the matching conducted for this report is most likely under-representative of the number of guests who have been served before or after the event by a provider participating in HMIS. For the same reason, the matching process most likely also under-counts the number of guests who have attended previous Project Homeless Connect events.

## ***Known contact with homeless service providers prior to event***

The 137 guests who indicated a preference not to provide their name or other potentially identifying information at the event were entered anonymously, and it is not possible to match their records with others existing in the database. Forty-seven percent of identifiable guests served at the December 2009 event had been previously served by an organization participating in HMIS prior to the event.

### **17. Percent of identifiable guests served by an organization participating in HMIS prior to the event**

While the proportion of guests found to have been previously served by an organization participating in HMIS increased by 9 percentage points, the breakdown of homeless status and household status remained similar to previous events.

### **18. Homeless status of event guests with records in HMIS prior to event compared with those without records in HMIS prior to event**

	In HMIS prior to event	Not in HMIS prior to event
Not currently homeless	147 (23%)	192 (27%)
Living with family or friends*	24 (4%)	53 (7%)
Homeless, but status unknown**	31 (5%)	28 (4%)
1st time homeless and less than 1 year without home	156 (25%)	186 (26%)
Multiple times homeless, but NOT meeting LTH definition	88 (14%)	85 (12%)
Long term: At least 1 year OR at least 4 times in past 3 years	154 (25%)	119 (17%)
Unknown/Missing	24 (4%)	46 (7%)
<b>TOTAL</b>	<b>624</b>	<b>709</b>

\* Some guests identified as “not currently homeless” and also indicated living with family or living with friends (see Table 9 for living situations).

\*\* Some guests identified as “not currently homeless” but also indicated living in situations typically considered homeless (emergency shelters, living on the streets/squatting, and transitional housing programs for the homeless).

---

**19. Household status of event guests with records in HMIS prior to event compared with those without records in HMIS prior to event**

	<b>In HMIS prior to event</b>	<b>Not in HMIS prior to event</b>
Single head of household with dependent children	139 (22%)	124 (18%)
Single with no dependent children	401 (64%)	477 (67%)
Unaccompanied youth	9 (1%)	20 (3%)
Married/domestic partner with dependent children	45 (7%)	51 (7%)
Married/domestic partner with no dependent children	30 (5%)	37 (5%)
TOTAL	624	709

***Known contact with homeless service providers after the event***

Of the 1,333 identifiable guests served at the December 2009 event, 242 (18%) guests were served by organizations participating in Minnesota’s HMIS (and entered with identifiable records into the HMIS) within four weeks after the event. Of those 240 guests, 10 guests had not been served by a participating provider prior to the December event. The services that these guests received by participating providers included emergency shelter and food, transitional housing, rent payment assistance through the state’s Family Housing Prevention and Assistance Program. However, as many housing providers initially collect information from clients on paper and then transfer it to HMIS, it is likely that more Project Homeless Connect guests were served than are represented here.

***Known involvement with previous Project Homeless Connect events***

As mentioned above, Minnesota’s HMIS was also used to gather data on five previous Minneapolis/Hennepin County Project Homeless Connect events. Using HMIS data collected at those previous events, we examined the number of people who had attended more than one event. Setting aside the guests who were entered anonymously at each event:

- 248 (19%) of identifiable individuals served at the Hennepin County event in December 2009 had attended the previous event held in Hennepin County in May 2009.
- 304 (23%) of identifiable individuals served at the Hennepin County event in December 2009 had attended at least one previous event in held in Hennepin County.

These results still may under-represent the number of people who have attended more than one Project Homeless Connect event. In fact, when asked, “Have you ever been to

a Project Homeless Connect event like this one before today?” 503 guests, or 34 percent, responded “yes.” This discrepancy could be due to many factors: data entry errors that prevent the correct matching of their records, missing or incomplete intake forms from guests, or because guests may confuse previous Project Homeless Connect events with other similar events held in the Twin Cities, such as the Stand Down events for veterans, Project Youth Connect, and other homeless prevention and service efforts.

# Conclusion

The December 2009 Hennepin County Project Homeless Connect event served over 1,400 households. As in previous years, housing and employment remained the most commonly sought services at the event. The population served at the events has remained similar over time, with approximately three quarters of guests identifying as single adults and one quarter as families. Breakdowns of race, age, and homeless status have also remained similar.

An increased proportion of guests served at the December 2009 event were found to have been previously served by an agency participating in HMIS. This could be due to the fact that the event is now reaching more people who have accessed other homeless and homeless prevention services in the community or because of increasing participation in HMIS by local housing and service providers.

## *Project Homeless Connect Intake Form*

## Project Homeless Connect Intake Form

Hi, My name is \_\_\_\_\_. Thanks for taking a few minutes to help us gather information for this event. This also gives me a chance to tell you about the services available today. We hope that your answers will help us to better understand what services are needed in the community and also to help us direct you to the services that you want today. This should take about 10 minutes. Also, please take a few minutes before you leave to fill out an exit survey.

*Now, I am going to ask a few questions about you (and your family). We hope that by answering these questions we will be able to better serve you today and in the future. You do not have to answer any of these questions if you do not want to.*

<b>What is your full Name?:</b> _____

We would like you to feel free to visit as many resources and providers as you choose today. I am happy to walk around with you, show you where things are, and help you find the service and resources you want. Would that be okay? [IF NOT, LET CLIENT/FAMILY WALK AROUND ON THEIR OWN. IF THEY WANT TO WALK AROUND ON THEIR OWN, REMIND THEM TO PLEASE FILL OUT AN EXIT SURVEY]
