

Homeless service use in Minnesota

*Continuum of Care region tables,
federal fiscal year 2009*

August 2010

This report is a companion to a longer narrative report, *Homeless Service Use in Minnesota: Emergency shelter and transitional housing, federal fiscal year 2009*, available www.wilder.org/report.html?id=2330. Please see that report for definitions, a detailed explanation of methodology, and additional background on homelessness in Minnesota.

The sum of unduplicated people served in the regional tables may differ somewhat from the sum of unduplicated people in the statewide tables because continuum of Care region tables are not unduplicated across regions.

Source: Minnesota's HMIS (aggregate data submitted to HUD as part of the Annual Homeless Assessment Report (AHAR) project). "Number of beds" is taken from the continuum's annual Exhibit 1 application to HUD, supplemented by information received from programs during the process of assembling data for submission to HUD for the national AHAR. Bed capacities should be considered approximations, since many programs can flex actual capacity between individuals and families, and to accommodate various family sizes.

"Number of beds" is taken from the continuum's annual Exhibit 1 application to HUD, supplemented by information received from programs during the process of assembling data for submission to HUD for the national AHAR. Bed capacities should be considered approximations, since many programs can flex actual capacity between individuals and families, and to accommodate various family sizes.

"Number of beds" is taken from the continuum's annual Exhibit 1 application to HUD, supplemented by information received from programs during the process of assembling data for submission to HUD for the national AHAR. Bed capacities should be considered approximations, since many programs can flex actual capacity between individuals and families, and to accommodate various family sizes.
