# AMERICAN BRAIN FOUNDATION EFFECTS ON ALUMNI RESEARCHERS

## **PUBLISHING**

Researchers funded from 1996 through 2023

28,231

913,961

**Publications** 

Citations\*

\*Times those publications have been cited in other research papers

Note. These are estimates based on available information.

# **TOPICAL AREAS**

Top six areas of research:

Alzheimer's and related dementias Epilepsy and seizures

Stroke

Neuromuscular diseases
Parkinson's disease

ALS

### **FUNDING**

98% of researchers received funding from NIH/NINDS

276

Researchers funded by:

National Institutes of Health (NIH)/National Institute of Neurological Disorders and Stroke (NINDS)

#### **Other Major Funders**

•	
	Researchers funded:
American Heart Association	85
Michael J. Fox Foundation	71
Alzheimer's Association	62
Simons Foundation	32
Chan Zuckerberg Initiative	29
Rainwater Charitable Trust	17
Bill and Melinda Gates Foundation	14

Note. These are based on available information and may not represent all funded researchers.
