Scan the QR code above to learn more about how youth benefited from engaging with Arts Board grantees.

From 2025-2026, Wilder Research partnered with the Minnesota State Arts Board to conduct an evaluation with 8 grantees who engage children and youth in arts and cultural experiences.

Boys & Girls Clubs of Central Minnesota asked young people to create a dance about what they learned in their dance program.

This zine shares one of the dances created by students, titled Shy Little Frog. When asked why they created this dance, the student said, "I learned you don't have to be scared."

Try the dance yourself! Then scan the QR code on the back cover to learn more.
