# Evaluation plan

| Program name:  |   |   |
|--|---|---|
|  |   |   |
|  |   |   |
|  | ces):   |   |
|  |   |   |
| Program participants/Target audience   | (s):  |   |
|  |   |   |
|  |   |   |
| Key evaluation stakeholders:   |   |   |
| Evaluation stage(s)  CHECK ALL THAT APPLY:  Front-end evaluation  Prototyping  Process evaluation  Remedial evaluation  Summative evaluation | Primary data collection method(s) CHECK ALL THAT APPLY:  Administrative records  Document review  Observation Focus groups Interviews Surveys | Sampling strategy:  Entire population (no sampling) Continuous random sampling Other: |

### **MEASURING PROCESS**

| PROCESS ITEM             | SOURCE | MEASURE | ANALYSIS<br>METHOD | POTENTIAL<br>ISSUES | COMMENTS (to be completed after gathering data) |
|--------------------------|--------|---------|--------------------|---------------------|---|
| Insert an example or two |        |         |                    |                     |   |
|                          |        |         |                    |                     |   |
|                          |        |         |                    |                     |   |
|                          |        |         |                    |                     |   |
|                          |        |         |                    |                     |   |
|                          |        |         |                    |                     |   |
|                          |        |         |                    |                     |   |

### **MEASURING OUTPUTS**

| OUTPUT<br>(from logic model) | SOURCE | MEASURE | ANALYSIS<br>METHOD | TARGET | RESULT (to be completed after gathering data) |
|------------------------------|--------|---------|--------------------|--------|---|
| Insert an example or two     |        |         |                    |        |   |
|                              |        |         |                    |        |   |
|                              |        |         |                    |        |   |
|                              |        |         |                    |        |   |
|                              |        |         |                    |        |   |
|                              |        |         |                    |        |   |

### **MEASURING DASHBOARD INDICATORS**

| INDICATORS               | SOURCE | MEASURE | ANALYSIS<br>METHOD | TARGET | RESULT (to be completed after gathering data) |
|--------------------------|--------|---------|--------------------|--------|---|
| Insert an example or two |        |         |                    |        |   |
|                          |        |         |                    |        |   |
|                          |        |         |                    |        |   |
|                          |        |         |                    |        |   |
|                          |        |         |                    |        |   |
|                          |        |         |                    |        |   |
|                          |        |         |                    |        |   |

# **MEASURING OTHER OUTCOMES**

| OUTPUT<br>(from logic model) | SOURCE | MEASURE | ANALYSIS<br>METHOD | TARGET | RESULT<br>(to be completed after<br>gathering data) |
|------------------------------|--------|---------|--------------------|--------|---|
| Insert an example or two     |        |         |                    |        |   |
|                              |        |         |                    |        |   |
|                              |        |         |                    |        |   |
|                              |        |         |                    |        |   |
|                              |        |         |                    |        |   |

# **TIMELINE**

| TASK                               | TASK LEAD | TIMELINE |
|------------------------------------|-----------|----------|
| Choose/design data collection tool |           |          |
| Collect data                       |           |          |
| Analyze data                       |           |          |
| Use evaluation results             |           |          |
